LUXURIOUS STEAM FOR YOUR HOME

The benefits of steam bathing go back to ancient Greek and Roman times where steam-filled rooms were used for relaxation and cleansing. Saunacore's advanced steam and sauna products bring the health and wellness benefits back into your daily life. Their stand out technology enables you to create your own steam bath experience by incorporating steam into any shower or bath.

SAUNACORE™

Saunacore has been in the sauna industry since the early 80's. With years of producing an extensive line of quality products, we have become one of the largest manufacturers of our kind. Although headquartered in Toronto, Canada, our products are now found around the globe thanks to an increasing number of global clients and dealers.

Our family run business has been built on ensuring high quality products and highly competitive prices but what we value most, and is core to our business model, is customer satisfaction. Based on client feedback, we believe Saunacore products are of outstanding quality, are durable and safe... we pride ourselves on this.

Please take a look at our products and compare them to our competitors. We at Saunacore know you will see the difference. We believe our standard of quality and workmanship is unbeatable.

Above all, we would like to take this opportunity to thank all our customers who have helped make Saunacore the success that it is today... it only happened because of you.

S P A II

State-of-the-art electronic steamer operations circuit board	Stainless steel exterior body
Steam room temperature sensor	Industrial stainless heating elements
Compact design and minimal water usage for steam	Brass intake and drain valves
Elegant steamheads with aroma oil reservoir	ASME Pressure release valve
Various aroma essential oils available	Limited lifetime warranty
Stainless steel boiler tank	

Steambath Generators

Sizing & selection

Measure the length, width and height (in feet) of the steam shower. Multiply the three measurements together to get the basic volume in cubic feet. Steam room suggested height to be maximum 8ft.

L x W x H = CUBIC FEET x % (wall finish)

Ceramic Tile = 130%

Natural Stone = 200%

Fiber Glass / Acrylic = 100%

Steam Line 50ft+ = 120%

Glass Block Wall = 110%

Steam Line Subject to Freezing = 125%

Glass Wall = 110%

A ceramic steam shower with the dimensions 7ft length by 5ft wide and 7ft high, is 245 Cubic ft.
**7 x 5 x 7 = 245**. Since the shower has a ceramic tile wall, it then requires a **30%** cubic footage increase.
245 x 0.30 = 73.5ft

The ceramic cubic feet is then added to the original dimension to calculate the total cubic footage.
73.5 (ceramic) + **245** (steam space) = **318.5 ft**

Now select the next size of Steamcore model generator which exceeds the calculated room cubic feet. In this case the **SC-375** (9000 watts) generator is required. If there is doubt in size, it is recommended to choose the next larger size.

SC-CABLE.CLED	28' cable for multicolour LED light	**$170**
SC-CABLE.CTRL	28' cable for control panel	**$170**
SC-CABLE.TRANS	5' cable for transformer	**$68**

Durability

Industrial incoloy 800 series or stainless elements.

Elements are more corrosive-resistant than copper.

Insulation is used to insulate the boiler tank, making the machine more efficient and, in turn, keeping the exterior body of the unit cool to touch.

An "Auto Flush" and "Auto Rinse" are located at the lower side of the tanks and helps reduce from buildup of limestone and calcium, and fresh water, clean steam every time.

Dual tank and boiler is made with Stainless Steel.

The exterior body is stainless steel.

Boiler is tick-welded to prevent any kind of leaks.

The exterior body is built with louvers for air circulation.

Brass Filling/Drain solenoid valve.

Water connection: 1/2"

Modular "snap-in" connections.

Full port drain valve.

Electronic 3 level water control system.

Shielded control cable minimize electro interference from other electrical wires.

Benefits of steam bathing

Relieves pain and stiffness from arthritis.

Beautifies, cleanses, clears skin and complexion.

Helps to burn calories and lose weight.

Sharpens senses.

Boosts immune systems.

Eliminates harmful toxins trapped in the skin.

Relieves stress and anxieties.

Revitalizes the mind and body.

Energizes the body.

Moist heat opens the pores of your skin leaving it soft and supple.

Improved breathing and sense of cleanliness.

Feel refreshed, revitalized and rejuvenated.

Improves cardiovascular system, breathing and adds a sense of purity.

Removes impurities from the body through natural perspiration.

Relieve tired and aching muscles as heat soothes the body.

Aroma oils will enhance your steambath experience.

A warm shower will promote a good nights sleep.

Feelings of relaxation and rejuvenation.

Safety

As commonly accepted in the medical field for sanitary objectives, Steamcore™ uses stainless steel boiler tanks to avoid oxidization or corrosion.

Steamcore™ has a dual built-in "High Limit" which prevents the unit from overheating.

Steamcore™ units use three levels of water sensors (stainless steel probes) to prevent the unit from activating the elements without water and to intake minimal water to create steam.

Insulation is used in the steam generator for fireproofing safety.

All Saunacore™ products are approved to CSA, UL and CE standards. Best of all, you can be ensured that you'll receive a product that you can trust and rely on thanks to our high quality and performance.

Low voltage controls and Serviceable heating elements.

Dual drain on large units (manual and auto).

Installation components

Built-in magnetic contactor when required.

All steam bath generators have steam heads with aroma oil reservoir.

Solenoid with a strainer.

Filtration or softeners are not required for installation.

Steamcore™ is functional and durable even in hard water.

Steamer runs super quiet.

'Elegance' 3/4" thread steam heads with aroma reservoir (variety of finishes).

Easy on-site service

Steamcore™ units make it easy to test any components.

Our silver solder elements are bolted into the tanks, making them easy to service.

All components can be serviced or tested on-site.

Limited lifetime warranty on generator

Steam Packages

**SAUNACORE™**

Standard Control Package

The Spa II's durable, high-quality design ensures longlasting performance and our high-quality components assure a high level of reliability for many years of use.

Includes

The Saunacore™ Standard Control Package includes the essentials for a beautiful and effective steam shower. Choose between round or square models of shower controls and steam heads, available in chrome, brushed nickel, and polished nickel. Each set comes with two steam heads, and the steamhead control cable. Generators and pans are sold separately. Consider adding Saunacore™'s multicolour lighting for added health benefits. Suitable for residiential and commercial use.

Deluxe Control Package

Exclusive XTREME™ technology works to maintain a more consistent temperature throughout your steam bathing session. The Two-Tank technology optimizes performance compared to conventional singletank systems, resulting in more even temperatures and continuous steam for greater efficiency.

Features

- (5) User Mode Setting
- Auto-Power On (7 Day Setting)
- LCD In Shower – Ultra Slim Keypad
- (External Sensor Optional Upgrade)

Available WIFI option *(contact for more info)*. Simple add on for SSB Package Keypad. Low Voltage. Easy plug and play WiFi module box. Simple APP download & setup. Control your steam generator through smart device.

Bluetooth technology to connect to any smart device to listen to music with the supplied marine grade speakers and extension cables.

Clear LED light activation from the keypad, with option of adding a CHROMA LED light.

Clock display while in standby mode. User sets date and time.

All components such as speakers, keypad, clear light, and Chroma color light come with 28ft extension cables for easy placement in steam shower or bathroom area.

One of the most reliable and advanced steam generators on the market that is CSA CERTIFIED.
