ABOUT ARIA

**PROUDLY MADE
IN CANADA**

All Aria vanities are proudly manufactured in Canada, using locally sourced components. Our price list shows many modern and contemporary models readily available in our stock program, in addition to the flexibility of custom made to order units made to your customers specifications. You can specify size, colour, alternative basins and design upon request. See page 4 for our finishes selection, colours and materials.

Customers can choose from any of the models and basins shown in this price list. We source the basins from several manufacturers in Europe, including the world-renowned Catalano from Italy.

CODING INSTRUCTIONS

Each vanity comes with many different options. Coding can be a bit confusing but is particularly important in order to make sure you receive exactly what you want.

Basic coding starts with the **model number**, followed by the **hinge direction**, **colour**, and **handles**.

Take special note of where the spaces and dashes are located!

CODING ORDER

MODEL NUMBER - RIGHT / LEFT HINGE FRAME COLOUR - DRAWER COLOUR - HANDLE COLOUR

LEFT/RIGHT HAND HINGES

Some units require additional coding to indicate left hand / right hand hinging of doors. This should be indicated after the model number with an **RH** for right hand hinging and **LH** for left hand.

HANDLE COLOUR

Some units offer you the option to upgrade the handles to premium finishes. Chrome comes standard and does not require any indication, so only mark a finish here if you are upgrading.

UNIT COLOUR

The **ELITE** Vanity Range

The Elite collection features one deep drawer with soft close system, finger pull and a light grey interior. The frame and drawer can be the same colour, or different, your choice!

Can be installed wall-hung or on legs. Includes cut-out for drain. Please specify number of basin drill holes and hole positioning. When ordering different frame and drawer colours, pricing of the more expensive finish will apply.

The **TRADITIONAL** Vanity Range

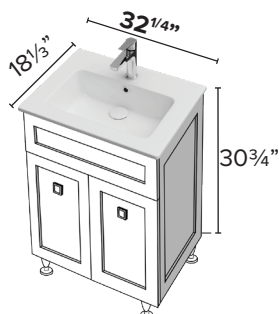

The Traditional Collection of Vanities is entirely Canadian made, crafted from high quality products locally sourced. Every vanity is lacquer finished wood and features a soft close door, and decorative chrome handles. All are matched with ceramic basins made in Europe, or a white crystalized quartz countertop and undermount basin from Europe.

We offer two door styles for each version. Raised Panels (-RP) are the standard as they offer the most traditional style, however shaker style doors are available as well by ordering -SK instead of -RP.

Standard lacquer colours are white and grey. Customized colours: indicate any Benjamin Moore colour code for a \$300 surcharge. Integrated drawer option (-INT) is \$175 for single bowl versions, and \$350 for double bowl versions.

INSTALLATION

SOFT CLOSE DRAWER SYSTEM

RE-INSTALLING THE DRAWERS

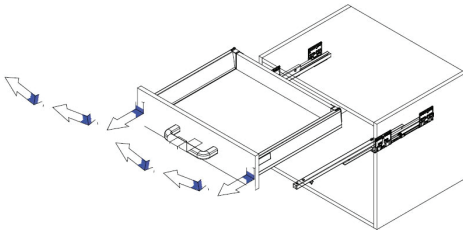

To check if the drawer is well hung, while supporting the drawer, open it to its maximum. If it does not come off, it is well hung. If the drawer does not extend completely, pull the drawer out and make sure the clip (fig 2b) at the end of the slide is well installed into the drawer, see Fig 3b & 3c. You'll hear a click.

INSTALLATION

REMOVING/ADJUSTING THE DRAWERS & DOORS

Pull the drawer out and up simultaneously in a smooth motion, while holding both sides of the drawer

Door Adjustment :

1. Width Adjustment

Turn the screw 1

2. Depth Adjustment

Loosen the fixation screw at 2 (1 time). Adjust the depth and tighten the screw

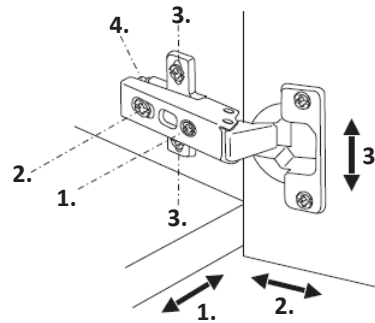

3. Height Adjustment

Loosen the screws at 3 on the mounting plate.

Adjust the height and tighten the screws back on.

Removing Doors

Unclick the hinge at 4

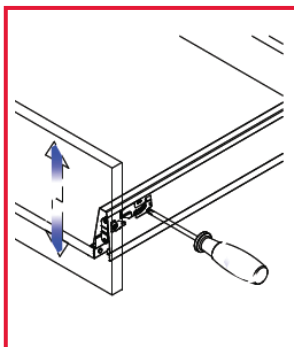

Drawer Adjustment:

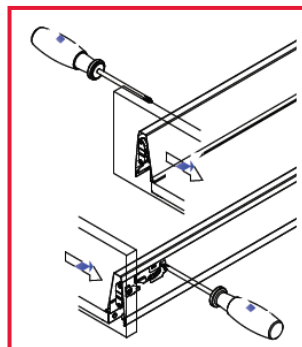

A. Front Height Adjustment $\pm 2\text{mm}$ | Use a screwdriver to counterclockwise to lower the front panel, or clockwise to raise it.

B. Front right adjustment 1mm | Turn clockwise for adjustment to the right

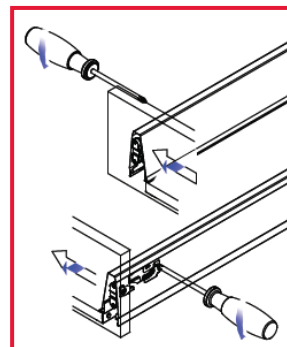

C. Front left adjustment 1mm | Turn counterclockwise for adjustment to the right

A

B

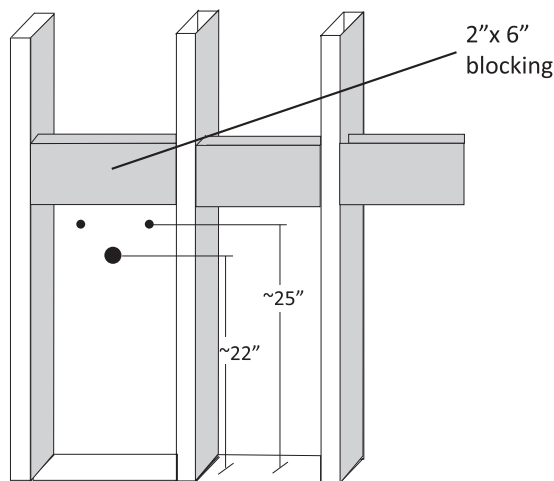

C

INSTALLATION

PLUMBING & WALL INSTALLATION

Prepare the walls so that they are built with 2"x 6" blockings in between the studs. Check the width of your furniture and make sure the back of the vanity is properly anchored into the backing or studs.

The standard height of a vanity with the sink installed is approximately 32" off the ground, but can be altered based on personal preference. Since our second drawers do not have cutouts, properly measure the desired location of the plumbing outlet from the wall, while considering the p-trap chosen.

CLEANING INSTRUCTIONS

Use a soft cotton cloth, moistened with water to clean doors and parts in matte finishes. For glossy finishes, a glass cleaner that does not contain solvents may also be used. Dry well afterwards with a soft cloth.

Do NOT use abrasive sponges, abrasive products, or products containing acids or solvents. No acetone, chlorine, wax, powder detergents should be used. Metallic parts such as handles or legs should only be cleaned with a moist cloth and dried with another soft cloth. No steel wool or abrasive sponges, abrasive products, products containing acids or solvents should be used.

WARRANTY

Aria will repair or replace, at it's option, free of charge within 5 (five) years of purchase date, any part which proves to be defective in material and/or workmanship under normal installation, use, service and maintenance. Aria is not liable due to unauthorized modifications or repairs, and surface deterioration due to cleaning methods not in accordance with instructions. This remedy is the sole and exclusive remedy of the purchaser for the breach of any warranties or negligence. Aria and Streamline Canada will not assume liability for labour expended, freight costs or damages accruing from the use of these products.
